

REPAIR ■ MAINTENANCE ■ PRESERVATION

Update on Parish Maintenance Needs

(1) Funds generated by the 2011 Parish Capital Campaign enabled us to replace sections of the Church roof, marked in the picture above with the letter “A.” There were four sections, only two of which are visible in the picture. The total cost to repair those sections was \$359,000.

(2) In the same picture above, the Church tower will need attention. At the top of the tower, there is a cross sitting on a four-sided copper roof. The pictures at left, taken inside the tower, show that there are signs of water damage below that copper roof (letter “B”); there is also an inner roof (letter “C”) at the base of the tower that needs to be replaced. An inner drain pipe in the tower is clogged. We are awaiting a bid for this work.

Update on Parish Maintenance Needs

(3)

As of 2/28/2016, there is a balance of \$41,955 left from the 2011 Parish Capital Campaign. We anticipate using those funds for two purposes.

First, the flat roofs above the northeast corner of the Church (over the exit door near the Convent and identified in the picture at right with the letter “D”) need to be replaced at a cost of \$17,345.

Second, the stained glass louvre windows in the choir loft (not pictured) need to be repaired at a cost of \$8,875.

Funds from the Generations of Faith Campaign

The funds from the Generations of Faith campaign will be received over the next five years. They have been designated for the following four projects:

- a new Church organ
- sidewalk cement work
- painting the Church floor
- refurbishing the sanctuary woodwork

As always, we are grateful for your continued generosity. May God watch over you.

— Bishop Sanchez, Father Passenant, Father Antonín
